The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). Continuation Sheet (PTO-303)

Application No.

Continuation of 3(a), 3(d):

The amendment to the claims substantially changed the scope of the claimed invention, which at least requires further consideration in terms of prior art application, etc. For example, claim 1, as well as other claims, is amended to include new limitations of "identifying a trait of a specimen in the population before the administration of a [sic] said test agent" and " identifying a difference between said trait before administration of said test agent and after administration of said test agent, wherein a difference identifies said agent as having an effect on said population of insects." All these limitations are new method steps and limitations and require further consideration and/or new search.

Continuation of 11:

Since applicant's argument is largely based on the amendment, and since the amendment is not entered, the rejections set forth in the final action remains for the same reasons set forth therein.
